#### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eugene Gierczak (Reg. 31,690) on September 13, 2006.

The application has been amended as follows:

Claims 29, 30, 31, 34 and 35 have been cancelled.

#### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 3-10, 12, 13 and 15-22, the prior art does not show an airborne tow assembly having a flexible support for the coils including a sensor section, the sensor means flexibly connected to the sensor section and operating the circuitry using a dual-mode amplifier, in combination with the other features of the claims.

Regarding claims 23-28, the prior art does not show an airborne tow assembly having a flexible support for the coils

including a sensor section, the sensor section aligned with the transmitter section and operating the circuitry in the dual mode amplification process, in combination with the other features of the claims.

Regarding claims 32 and 33, the prior art does not show an airborne tow assembly having a flexible support operating as a pulse induction surveying system, and during the OFF interval, measuring the residual currents circulating in the transmitter means, in combination with the other features of the claims.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Inouye et al. (US3978396) teaches a dual mode amplification system for a medium testing apparatus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
